

Join Your Colleagues to Double Your Contribution Impact During COVID-19

In mid-March once COVID-19 was declared a pandemic, RADPAC® suspended its fundraising activities. That does not mean we haven't been busy over the past few months. In fact, RADPAC and the Government Relations team have been involved in significant legislative and regulatory discussions on advocating for PPE, liability relief, SBA practice loans, funding for CHIP providers, and paid sick and family leave tax credits. Additionally, we created a coalition of more than 50 provider organizations in the fight of proposed E/M cuts to radiology effective Jan 1, 2021.

Our work is far from done, and we also must remain prepared and engaged on the political front with the 2020 elections looming this fall. Therefore, the RADPAC Board has agreed to restart its fundraising with a Charitable Match Campaign that will run from July 31 through August 31.

What is RADPAC's Charitable Match Campaign?

All **new contributions of \$100 or more to RADPAC** (\$50 for residents) made between **July 31 through August 31** will be matched 10 cents on the dollar by RADPAC's administrative fund to one of three organizations selected by the RADPAC Board.

This benefit does not include installment plans established prior to the time of the Campaign or funds contributed to RADPAC earlier in the year. If you choose to start a new installment plan during the Campaign, we will match the amount contributed during the Campaign. [Click here to make your RADPAC contribution and select your charity.](#)

What are the Recipient Organizations?

The RADPAC Board designated three organizations to receive matched funds:

Radiology Leadership Institute: State-of-the-art leadership training and resources to ensure radiologists remain an integral part of the healthcare delivery team.

CDC Foundation Coronavirus Fund: The CDC Foundation was created by Congress for collaboration between CDC and philanthropies, private entities and individuals to protect the health, safety and security of America and the world.

RAD-AID International: Improve and optimize access to medical imaging and radiology in low resource regions of the world.

Where do the “matched” funds come from that will be contributed to the organizations?

The matched funds will come directly from RADPAC's administrative budget designated in the RADPAC FY21 budget for contributor recognition and networking activities throughout the year. Since some live events (like the RADPAC Gala) were canceled due to the pandemic, RADPAC is reallocating the funds for the charity match.

If you have any further questions, please reach out to **Ted Burnes** at: tburnes@acra.org

Contributions to RADPAC are not tax deductible. Federal law requires us to use our best efforts to collect and report the name, address, occupation and name of employer of individuals whose contributions exceed \$200 per election cycle. Contributions to RADPAC are limited to \$5,000 per individual per calendar year. Contributions must be made by U.S. citizens (or green card holders) and contributions must come from a personal not a corporate account. All non-personal contributions to RADPAC will be designated to our soft money account to defray costs of political educational programs for RADPAC and other activities permissible under federal law.
